

**Not Broken**  
**Skye Edwards**

Tabbed by: mrthehud  
Email: as above @gmail.com

Tuning: Standard, Capo on 3rd.

Such a lovely song, and oh so easy to play :D Not sure the exact name of the F, but I play 133010.

[Intro]

**Am**        **F**  
**Am**        **F**

**Am**                    **F**  
On and on, hold on  
**Am**                    **F**  
Not broken in two; not you!  
**Am**                                    **F**  
Like the seed, you grow  
                                 **Am**  
Under it all  
     **F**  
Your roots take hold

**Cadd9**                    **G**  
Smooth out the creases  
**Cadd9**  
  Then you ll see

**Am**                    **F**                    **G**                    **Cadd9**  
And when you fall down in between them all  
**Am**                    **F**                    **G**                    **Cadd9**  
Here you are whole, not broken

**Am**                    **F**  
On and on, hold on!  
     **Am**                    **F**  
Not broken - just loose at the seams  
**Am**                                    **F**  
Oh, no no! don t let go!  
     **Am**                    **F**  
Just listen

**Cadd9**                    **G**

Goodness increases

**Cadd9**

You will see

**Am**                **F**                                **G**                                **Cadd9**

And when you fall down in between them all

**Am**                                **F**                                **G**                                **Cadd9**

Here you are whole, not broken

**Am**                                **F**    **G**                                **Cadd9**

Leave it behind - all of the pain inside

**Am**                                **F**                                **G**                                **Cadd9**

Here you will be, not broken

**F**    **Cadd9**                                **G**                                **F**                                **Cadd9**

Through the crowd patchwork souls                move closer, closer

**Am**                                **F**                                **G**                                **Cadd9**

And when you fall down in between them all

**Am**                                **F**                                **G**                                **Cadd9**

Here you are whole, not broken

**Am**                                **F**    **G**                                **Cadd9**

Leave it behind - all of the pain inside

**Am**                                **F**                                **G**                                **Cadd9**

Here you will be, not broken

**Am** **F**                                **G**                                **Cadd9**

You                will see

**Am** **F**                                **G**                                **Cadd9**

You                will see

**Cadd9**

...
