

This Morning I Was Born Again
Slaid Cleaves

D **G** **D**
This morning I was born again and a light shines on my land
A
I no longer look for heaven in your deathly distant land
D **G** **D**
I do not want your pearly gates don t want your streets of gold
A **D**
This morning I was born again and a light shines on my soul

G **D**
This morning I was born again, I was born again complete
A
I stood up above my troubles and I stand on my two feet
D **G** **D**
My hand it feels unlimited, my body feels like the sky
A **D**
I feel at home in the universe where yonder planets fly

G **D**
This I was born again, my past is dead and gone
A
This great eternal moment is my great eternal dawn
D **G** **D**
Each drop of blood within me, each breath of life I breathe
A **D**
Is united with these mountains and the mountains with the seas

G **D**
I feel the sun upon me, it s rays crawl through my skin
A
I breathe the life of Jesus and old John Henry in
D **G** **D**
I give myself, my heart, my soul to give some friend a hand
A **D**
This morning I was born again, I am in the promised land

G **D**
This morning I was born again and a light shines on my land
A
I no longer look for heaven in your deathly distant land
D **G** **D**
I do not want your pearly gates don t want your streets of gold
A **D**
And I do not want your mansion for my heart is never cold
