

Autumn I Wish I Was Better
Sleep On It

[Verse 1]

I feel my soul come alive when I watch the leaves die
But I m still turning gold from the glow that I saw in your eyes
Writing letters to a ghost of who you once were
I plagiarise every line cause I can t remember

[Pre-Chorus]

Now I miss every friend I never found
Nicotine and a knack for let-downs
I ve been trying to find the words to say
To get you back around

[Chorus]

I never had a chance to get it right (whoah)
But I never tried
I can t find the words I wanna write
To tell you that I ll be better next time

[Verse 2]

You felt your heart come alive when you watched our love die
And now I m left feeling cold in the void that you left in my life

[Pre-Chorus]

Now I miss every friend I never found
Caffeine and a knack for let-downs

I ve been trying to find the words to say
