

**In The Embers**  
**Sleeping at Last**

Verse 1:

**C**                    **G**    **G/B**            **C/E**  
We live and we die, like fireworks

Our legacies hide in the embers  
**C**                    **G**            **G/B**                    **C/E**            **G/D**            **C**

Compete against the stars with all of our hearts  
   **Am**                    **F**                    **G**  
Til our temporary brilliance turns to ash

We pull apart the darkness while we can

May we live and die a valorous life

May we write it all down in cursive lines  
**C**                    **G**                    **G/B**    **C/E** **G/D**        **C**  
So we pray we were made in the image of a figure 8

Compete against the stars with all of our hearts  
   **Am**                    **F**                    **G**  
Til our temporary brilliance turns to ash  
   **Am**                    **F**                    **G (x2)** **G/B (x2)** **G/D (x2)**  
We pull apart the darkness while we can

Like fireworks we pull apart the dark
