

**Snow
Sleeping at Last**

[Verse]

C# **F#**
The branches have traded their leaves for white sleeves
C# **F#**
All warm blooded creatures make ghosts as they breathe
C# **F#**
Scarves are wrapped tightly like gifts under trees
C# **Am#** **F#**
Christmas lights tangle in knots annually
F# **Am#** **C#**
All families huddle closely, betting warmth against the cold
F# **G#**
All the bruises seem to surface, like mud beneath the snow
C# **F#**
So we sing carols softly, as sweet as we know
C# **F#**
A prayer that our burdens will lift as we go
C# **Am#** **F#** **C#**
Like young love still waiting under mistletoe
C# **Am#** **F#** **C#**
We ll welcome December with tireless hope

[Chorus]

F# **Am#** **C#**
Let our bells keep on ringing, making angels in the snow
F# **Am#** **G#**
And may the melody disarm us, when the cracks begin to show
F# **Am#** **C#**
Like the petals in our pockets, may we remember who we are
F# **G#**
Unconditionally cared for by those who share our broken hearts

[Verse]

C# **F#**
The table is set and all glasses are full
C# **F#**
Though pieces go missing, may we still feel whole
Am# **G#** **F#** **C#** **C#**
We ll build new traditions in place of the old
Am# **G#** **F#** **C#**
Cause life without revision will silence our souls

[Chorus]

F# **Am#** **C#**
Let the bells keep on ringing, making angels in the snow
F# **Am#** **G#**
And may the melody surround us, when the cracks begin to show
