-VERSE-

**E** **Aadd9** **E**  
Have a heart, have a heart, have a heart  
**Amaj** **Dsus4 Amaj**  
Sixteen six six six and I know the part  
You are the river flow and we can never know  
We re just the weathermen, you make the wind blow

Keep thinking about every straight face, yes  
Wonder what your boyfriend thinks about your braces  
What about them? I m all about them  
Six sets straight ace Cut em in the bathroom

So this is it then? You re here to win, friend  
Click click saddle up see you on the moon then  
You re all alone, friend? Pick up the phone then  
Ring ring call em up, tell em bout the new trends

So this is it then? You re here to win, friend  
Click click saddle up see you on the moon then  
You re all alone, friend? Pick up the phone then  
Ring ring call em up, tell em bout the new trends

Have a heart, have a heart, have a heart  
Sixteen six six six and you fell apart  
You form a tarot pack, and I m aware of that  
But we could fist fight drunk like the parent trap

Keep thinking bout every straight face, yes  
Wonder what your boyfriend thinks about your braces

We never blink, see, and you can see me  
You fell asleep in the middle of the theory

So this is it then? You re here to win, friend  
Click click saddle up see you on the moon then  
You re all alone, friend? Pick up the phone then  
Ring ring call em up, tell em bout the new trends

So this is it then? You re here to win, friend  
Click, click saddle up see you on the moon then  
You re all alone, friend? Pick up the phone then  
Ring ring call em up, tell them bout the new trends

Have a heart, have a heart, have a heart
