

Cool Down
Slightly Stoopid

Guitar 1(Bassline):

```
          !                               !
E-----4--4-----
A---6--6-----6--4--6-----6--4--6--
D-----5-5-5-----6-6-6-----
G-----
B-----
e-----
```

```
          !                               !
E---6--6-----4--4-----
A-----8--6--8-----6--4--5-
D-----8-8-8-----6-6-6----- repeat
G-----
B-----
e-----
```

Guitar 2 (Rhythm played all in upstrokes):

```
E-----4-----6-----4-----
A-----6-----6-----8-----6-----
D-----8-----6-----8-----6-----
G-----8-----5-----7-----5-----
B-----8-----4-----6-----4-----
e-----6-----4-----6-----4-----
```

That s pretty much the song. The exclamation points are where the second guitar does the upstroke. The intro is the same chords with variations from the first guitar, and also some variations on the bass line which I haven t quite figured out yet. Check for lyrics elsewhere, I don t want to write them.
