tune guitar down to:**C#,F#,B,E,G#,C#**

[Intro]
Am,Em,F

[Verse]
```
 Am                         Em    F    **
Bury all your secrets in my skin
 Am                              Em  F
Come away with innocence, and leave me with my sins
 Am                              Em         F
The air around me still feels like a cage
 Am                              Em   F
And love is just a camouflage for what resembles rage againâ€¦
```

(*the chord that comes after F is just a strum upwards from high string repeat
in all Verses)

[Pre Chorus]
Am,Em,F

[Chorus]
```
                        G                           Am
So if you love me, let me go. And run away before I know.
                                G                          Am
My heart is just too dark to care. I can t destroy what isn t there.
                    G                          Am
Deliver me into my Fate - If I m alone I cannot hate
                         G
I don t deserve to have youâ€¦
   F                                              Am
My smile was taken long ago / If I can change I hope I never know
```

Pre Verse:**Am,Em,F**
```
   Am                    Em       F
I still press your letters to my lips
    Am                       Em       F
And cherish them in parts of me that savor every kiss
   Am                       Em    F
I couldn t face a life without your light
    Am                          Em   F
But all of that was ripped apartâ€¦ when you refused to fight
```

[Chorus]

```
                       G                                            Am
So save your breath, I will not hear. I think I made it very clear.
                            G                               Am
You couldn t hate enough to love. Is that supposed to be enough?
                          G                                  Am
I only wish you weren t my friend. Then I could hurt you in the end.
                       G
I never claimed to be a Saintâ€¦
     F                                              Am
My own was banished long ago / It took the Death of Hope to let you go
```

[Solo]
Am.Em,F

[Chorus]

```
                       G
So Break Yourself Against My Stones
                     Am
And Spit Your Pity In My Soul
                   G
You Never Needed Any Help
                    Am
You Sold Me Out To Save Yourself
                     G
And I Won t Listen To Your Shame
                        Am
You Ran Away - You re All The Same
                   G
Angels Lie To Keep Controlâ€¦
```

[Outro]
```
     F
My Love Was Punished Long Ago
                              A5,B5,C5,E5,F5
If You Still Care, Don t Ever Let Me Know
                              Am,Em,F(twice),ends in Am
If you still care, don t ever let me knowâ€¦
```
