

Live On In The Dark
Slobberbone

[Intro]

D Bm G

D Bm G

[Verse 1]

D

Once you eyes they shone like flashlights,

Bm

Fountains of clarity

G

And the most alkaline of batteries, were you and me

D A G

Free of failure, flicker or fade

D

Yeah, but depending where you re from too much daylight

Bm

Can seem like an oddity

G

And devotion is a commodity, so with you it seems

D A G

It only comes in trade

D

A

G

A

Oh, but the first time the bill isn t paid, it s too late...

[Chorus]

D

So you just live on in the dark

Bm

G

You could drive but you just park

D

You just talk when you could sing

Bm

G

And now it doesn t mean a thing

A

You could bite, but you just bark

G

A

You could light but you just spark

D

Bm

G

You live on in the dark

[Verse 2]

D

Rolling papers, bottles and needles,

Bm

and people we trusted

G

Our eyes just become too adjusted, we d be busted

D **A** **G**
If sightlessness were a crime

D
So now I guess I should be searching for matches

Bm
But I don't see what's the use

G
Engines run till they're out of juice, and I can't even produce

D **A** **G**
Fuel enough to light your face

D **A** **G** **A**
And that's a light I will never replace in time

[Chorus]

D
So I just live on in the dark

Bm **G**
I could drive but I just park

D
I just talk when you could sing

Bm **G**
And now it doesn't mean a thing

A
I could bite, but I just bark

G **A**
I could light but I just spark

D
I live on in the dark

[Guitar solo]

D Bm D Bm G A G A G A

[Refrain]

F#m **G**
It's as if we've only ever come together

D
just to test each other's mettle

F#m **G**
Or to justify subsistence or bolster our resistance to the

E
idea that we should struggle

A
When we could just settle

[Verse 3]

D
So you just get numb to every itch

Bm **Bm7**
And there's no feeling in your fingertips

G
And you can't find the switch

D **A** **G**
And we've grown much too tired to grope

D **A** **G** **A**
Yeah, we lost all our fire to cope a long time ago

[Chorus]

D
So we just live on in the dark
Bm **G**
We could drive but we just park
D
We just talk when we could sing
Bm **G**
And now it doesn't mean a thing
A
We could bite, but we just bark
G **A**
We could light but we just spark
F#m
We live on in the dark

[Guitar solo]
