```
Live On In The Dark
Slobberbone
[Intro]
D Bm G
  Bm G
[Verse 1]
Once you eyes they shone like flashlights,
             Bm
Fountains of clarity
And the most alkaline of batteries, were you and me
Free of failure, flicker or fade
Yeah, but depending where you re from too much daylight
Can seem like an oddity
And devotion is a commodity, so with you it seems
It only comes in trade
Oh, but the first time the bill isn t paid, it s too late...
[Chorus]
So you just live on in the dark
You could drive but you just park
You just talk when you could sing
          \mathbf{Bm}
And now it doesn t mean a thing
You could bite, but you just bark
You could light but you just spark
                         Bm G
You live on in the dark
[Verse 2]
Rolling papers, bottles and needles,
and people we trusted
```

Our eyes just become too adjusted, we d be busted

```
D
If sightlessness were a crime
So now I guess I should be searching for matches
But I don t see what s the use
Engines run till they re out of juice, and I can t even produce
Fuel enough to light your face
And that s a light I will never replace in time
[Chorus]
So I just live on in the dark
I could drive but I just park
I just talk when you could sing
          Bm
And now it doesn t mean a thing
I could bite, but I just bark
I could light but I just spark
I live on in the dark
[Guitar solo]
D Bm D Bm G A G A G A
[Refrain]
      F#m
It s as if we ve only ever come together
just to test each other s mettle
Or to justify subsistence or bolster our resistance to the
idea that we should struggle
When we could just settle
[Verse 3]
So you just get numb to every itch
                               Bm7
And there s no feeling in your fingertips
And you can t find the switch
And we ve grown much too tired to grope
```

Yeah, we lost all our fire to cope a long time ago

[Chorus]

D

So we just live on in the dark

Bm

G

We could drive but we just park

D

We just talk when we could sing

Bm

G

And now it doesn t mean a thing

A

We could bite, but we just bark

We could light but we just spark F#m

We live on in the dark

[Guitar solo]
