

Tears Of Joy
Slow Club

Tabbed by Sam de Brunner
Tuning: Standard
No Capo

As this song hasn't yet been released on album I have based this tab on the live House of Barnabas video which can be found below this description. I am sure it can be applied to all live versions though and will hopefully work with the album version too when it comes out.

The guitar is usually tuned differently but I can never be bothered retuning my guitar so this is a standard tuning version of the song.
