Stay
Smash Into Pieces

[Intro]
F#m   C#m   E   B
Stay, stay, stay, stay

[Verse 1]
F#m   E
I thought you would be around forever
                              B
No matter where I would go
F#m   E
So I started taking you for granted
                          B
Forgot what I used to know

        F#m   C#m
Guess I sold my soul, just to have some fun
          E   B
Think I lost myself trying to be someone
        F#m   C#m
I gave you the blame, looked the other way
        E   B
Never thought it would drive you away

[Chorus]
          F#m   C#m
If I could turn back time and change my life
      E   B
Get another chance to make things right
          F#m   C#m
If I had one more word to say to you
   E   B
I let you know, I want you to
F#m   C#m   E   B
Stay, stay, stay, stay

[Verse 2]
F#m   E
I have learned a lesson of a lifetime
                    B
Won t be myself again
F#m   E
I forgot the things that really mattered
                          B
And lost it all in the end

```
       F#m                      C#m
Never told the truth, kept it all inside
         E                              B
Got you thinking there s something I m trying to hide
       F#m                   C#m
Knew I needed change, but I stayed the same
         E                             B
Never thought it would drive you away

[Chorus]
           F#m                    C#m
If I could turn back time and change my life
      E                 B
Get another chance to make things right
        F#m                 C#m
If I had one more word to say to you
   E               B
I let you know, I want you to
F#m     C#m      E        B
Stay, stay, stay, stay

[Bridge]
D                    E
In my dreams we are still together
F#m                   B
Everything is like one big, happy ending
D                    E
I m right there, I found my way home now
F#m                   B
It s too good to be true, and then I wake up
D         E
Like a ghost

[Post Bridge]
F#m                        C#m
I thought you would be around forever
    E                       B
No matter where I would go

[Chorus]
           F#m                    C#m
If I could turn back time and change my life
      E                 B
Get another chance to make things right
        F#m                 C#m
If I had one more word to say to you
   E               B
I let you know, I want you to
F#m     C#m      E        B
Stay, stay, stay, stay
                (I want you to)
```

```
F#m      C#m       E         B
Stay, stay, stay, stay
```

```
F#m      C#m       E         B
Stay, stay, stay, stay
```
