Asus2

I m not scared to tell the truth

E

I ve been to hell and back, and I went with you

Asus2

Remind me what we were before

B

When we said you are mine and I am yours

Asus2

I don t know much, but I know myself

E

And I don t want to love anybody else

Asus2

So let s break the spell and lift the curse

B

Remember when we fell for each other head first

Chorus:

E

Look at this heart shaped wreckage

What have we done?

Asus2

Asus2

We ve got scars from battles nobody won

E

We can start over, better

B

Asus2

Both of us know if we just let the broken pieces

Asus2

Let the broken pieces go

Asus2

I can t find you in the dark

E

Will we get back to who we are?

Asus2

And I can t fix this on my own

B

Our love is still the best thing I ve ever known

E

Look at this heart shaped wreckage

B

What have we done?

Asus2

Asus2

We ve got scars from battles nobody won

E

We can start over, better

B

Asus2

Both of us know if we just let the broken pieces

Asus2

E

Let the broken pieces go

B
