## Dont Ever Leave Smile Empty Soul

This is, if I m not mistaken, a half-step higher than the actual recording. I find

these chords easier. Also, if you are able to figure out the few chords that I m

missing in the chorus, feel free to post your own version. Those mostly just make

it sound better, but you should be able to do just fine with what I have here. I

figured this out by ear, so if bits of it are slightly off, I apologize.
