

Little Bohemia  
Smoke or Fire

**E**                      **C#m**                      **G#**  
The stars don't shine above our night.  
**A**    **E**  
The city lights are too fucking bright.  
**C#m**    **G#**  
So let's let them burn till the morning comes.  
**A**  
There's laughter and poison to shade our eyes.

**B**  
And if you're looking for the rest of us

**A**  
We're probably hanging out by the bar

**B**  
Looking for quarters for the pool table.

**A**  
We got the jukebox playing GNR

**B**  
Another round of beers for all my friends.

**A**  
I thought those summer nights would never end.

**B**  
We all could open up our mouths and say

**A**              **B**  
We are not the world.

**E C#M G# A 2x**

**A**              **B**                                      **E**  
I could sit in this spot all day

**G#**    **A**  
And see nothing around me change.

**B**    **E**  
We could open our mouths and say

**G#**    **A**  
That we won't be a part of it.

**B**    **E**  
Are you listening or waiting to speak

**G#**                                      **A**  
in this conversation?

**B**    **A~**  
Are you listening at all?

**A**              **B**                                      **E**  
I could sit in this spot all day

**G#**    **A**

And see nothing around me change.

**B**

We are not the world.

**:E~**

**A B: 4X**
