

Over You  
Smokie

A E F#m A E F#m

**Bm**  
It was a cold night

**F#m**  
January light by a silver moon

**Bm**  
And the band played

**F#m**  
another serenade to lovers tune

**Bm**  
But your crying eyes never could disguise

**F#m**  
What was on your mind

**Bm**  
And through it all I never would have called

**E**  
You the hurting kind

**D** **E**  
Then you closed your eyes said goodbye

**A** **G#** **F#m**  
And turned and walked away

(Chorus):

**Bm**  
Baby don t you know it s true

**E** **A** **F#m**  
There s nothing more that I can do

**Bm**  
Even though I know we ve through

**E** **A** **F#m** **A** **F#m**  
I just can t get over you

**Bm**  
Like the last time you said that you were

**F#m**  
Mine and you ll never go

**Bm**  
Those were good days thought you ll figured

**F#m**  
Out a way I would never know

**Bm** **F#m**  
I was crazy to let myself believe I was the only one

**Bm**  
I was so blind should have seen the sign of all the
