**Sneaker Pimps**

(i m submitting this here cuz sneaker tabs are just soo hard to find...  
such hard work copying & pasting..shit!)

destroying angel  
by luke blanch

i m pretty sure this is accurate. i ve been looking for sneaker pimps  
tabs forever and finally decided just to tab this myself. you ll need  
to listen to the cd to get the feel for the changes and picking but it  
should be alright. the d5 to c5 change in the verse can be replaced  
by an open dsus2 and open c (just as the F# can be played as an open  
F#), but it s not really needed - whatever you think sounds better.  
email me with suggestions etc.

Verse: **C5 Bb5 D**

i know you know my heads not in this now  
nothing you could keep so keep me down  
like the stones beneath the water that you walk on to be taller  
the hands you stuck together cause you prayed you d wait forever  
just another fragile angel heart  
falling down on lead wings torn apart

Chorus: **Gsus2 Bb D**

the words beneath my skin  
the ink that you put in  
destroying all the things you left around

Gsus2	Bb	D	F	Bb	D
cause i m earthbound coming down... come down... come down... come around					

Verse: **C5 Bb5 D**

so what you have the nerve to call a friend  
is starved of all the sense to make amends  
i m the glass you break to touch but you never want me much  
like the view across the water from the shoes and two feet smaller  
i know it doesn t pay to be this hurt  
falling off the morning getting worse

Chorus: **Gsus2 Bb D**

the words beneath my skin  
the ink that you put in  
destroying all the things you left around

**Gsus2 Bb D F Bb D**  
cause i m earthbound coming down... come down... come down... come around

Repeat Verse Riff x 2

Bridge/Outro (\*repeat till fade\*)

**E Gsus2 B5 E Gsus2 B5**  
cause i m down..... i m down
