Intro: **Csus2 C FM7sus2 Fmaj7 FM7sus2**

**Csus2** **C**  
You cool you bed-warm hands down  
FM7sus2 Fmaj7 FM7sus2  
On the broken radiator

**Csus2** **C**  
And when you laid them freezin on me  
FM7sus2 Fmaj7 FM7sus2  
A mumble can you wake me later

**Csus2** **C**  
But I don t really want you to stop  
FM7sus2 Fmaj7 FM7sus2  
And you know it so it doesn t stop you

**Csus2** **C** FM7sus2  
And runs you hands from my neck to my chest

Chorus:

**C** **Cadd9** **Fmaj7**  
Crack the shutters open wide I want to bathe you in the light of day  
**Am** **G6** **Fmaj7**  
And just watch you as the rays tangle up around you face and body  
**C** **Cadd9** **Fmaj7**  
I could sit for hours finding new ways to be odd each minute  
**Am** **G6** **Fmaj7**  
Cause the daylight seems to want you just as much as I want you

**Csus2** **C**  
It s been minutes it s been days  
FM7sus2 Fmaj7 FM7sus2  
It s been all all I will remember

**Csus2** **C**  
Happy lost in your hair  
FM7sus2 Fmaj7 FM7sus2  
And the cold side of the pillow

**Csus2**

**C**

Your hills and valleys

FM7sus2

Fmaj7 FM7sus2

Are mapped by my intrepid fingers

**Csus2**
