CAPO 3rd FRET

Intro: C Em

C
Widdle me away, Shape my soul,

Em

Run it in the ground, Rattle my bones,

C

Now the light of day, Too far gone,

Em

Listen to the sound, Driving it home.

C

You know you missed the point, You know you missed the mark,

Em

You gotta love me in the light, To love me in the dark.

C

And now I know you understand, You know you had it coming,

Em

Put the pistol in my hand, And then you started running.

C

G

Come pick your poison, Let all the noise in,

Am

Em

Take anything you want.

C

G

No need to explain, I know how this came,

Am

Em

Don't you assume I don't.

F C

Oh, oh,

Em

G

I said you're easy on the eyes and it comes as no surprise

C

G

And if we want each other cock it, and pull it,

Am

Em

You run for cover and I'll take the bullet.

C Em

Counting on tonight, Stuck on you,

Counting on a fight, Punch drunk true,

Sorry I returned, Sorry I was late,

Em
Now the tables have turned just a simple twist of fate.

Donâ€™t it make you feel small, In light of the world

Donâ€™t it make you feel tall, A beautiful girl
