Social Distortion - California (Hustle And Flow)

Running around like youâ€™re front page news

Lonely eyes and your motorcycle boots

Tattooed heart and your jet-black hair

Running â€™round like you donâ€™t care

Take me on down the line

Well, I was born, babe, with nothing to lose  
But the black man taught me how to sing the blues  
Made a little life outta rock â€™nâ€™ roll  
And that crazy California hustle and flow

Take me down

Take me on down the line

Shake me down

Shake me on down the line

I went too fast with that rhythm and booze  
Almost ended up dead like all those other fools  
Everyoneâ€™s got some sort of ball and chain  
Whatâ€™s life without a little pain?

Take me down

Take me on down the line

Shake me down

Shake me on down the line

Living in a Hollywood movie dream  
And Iâ€™m still reaching for the stars  
Life gets hard and then it gets good  
Like I always knew it would

Running around like youâ€™re front page news  
Lonely eyes and your motorcycle boots  
Tattooed heart and your jet-black hair  
Running â€™round like you donâ€™t care

Take me down

Take me on down the line

Shake me down

Shake me on down the line
