Strophe 1:

**F**  
Everybody wants a lover

**C**  
Nobody wants to uncover

**G** **B** **F**  
What may lays deep beneath a sometimes painful past

**F**  
Wanna go without care

**C**  
Pull gardenias from her hair

**G** **B** **F**  
I think of a time we didn't have a care in the world

**F** **C**  
Captivated by her beauty I knew it was my life-long duty

**G** **B** **F**  
She had all the grace and charm of a radiant queen

Chorus:

**C** **G**  
How do you talk without speaking?

**B** **F**  
How do you hear without listening?

**C** **G**  
How do you live without feeling?

**B** **F** **C**  
How do you take without giving?

**B** **F**

How do you keep it all inside?

Strophe 2:

**F**  
There are footprints on my ceiling

**C**  
I can't help this fucked up feeling

**G** **B** **F**  
Something's wrong, you ain't comin' around here no more

**F**  
Try to get my thoughts together

**C**  
I think of a time when things were better

**G** **B** **F**  
This miscommunication is breaking me down

Than repeat chorus ...

Strophe 3:

**F**  
Everybody wants a lover

**C**  
Nobody wants to uncover

**G** **B** **F**  
What may lay deep beneath a sometimes painful past

**F**  
My heart is heavy slowly sinking

**C**  
I redirect my desperate thinking

**G** **B** **F**  
And kiss her red full lips like I did the very first time

Than repeat the chorus once again ....

That's it !

....Great song....
