**G#**                    **A#m**                    **G#**        **Cm**  
time to bring the widows down again

**G#**                    **A#m**  
oh what a weekend

**G#**                                    **Cm**  
i was feeling a little strange

**G#**  
a little dim

**Cm**  
i walked out i walked out

**G#**                                    **A#m**  
now i m done with everything

**G#**                                    **Cm**  
now i m done with everything

(Repeats the same the whole song)

second row  
i guess i got it wrong again  
no-one here  
seems to notice the empty light  
the sorry din  
i shot through i shot through  
now i m done with everything  
now i m done with everything

oh let them follow  
time to put the hymn book down again  
oh this hollow  
cause now i m naked and too aware  
i stretched out i stretched out  
now i m done with everything  
now i m done with everything  
now i m done with everything
