

**A Certain Kind
Soft Machine**

C **G**
A certain kind... of love, I d say
Fm **C**
Exists for me, and every night
D
Your kind of love sets me alight
Bm **F** **Fm**
And I know it s real, it s what I feel, what I feel...

And loving you the way I do
Makes everything seem right again
And when you re near I know
I know you just can t tell the time
When you... it s just not right

And so our love I see in you
The things today, the things we do
And when you re near I know
You just can t see... well
I know it s real, it s what I feel

And loving you the way I do
Makes everything seem right again
And when you re near I know
I know you just can t see
All the time of day
I know you re mine, and all the time
