

Here I Am  
Soja

[Chorus]

**Bm**                    **G**                    **D**                    **A**  
She calls me when I m in town, I pretend I m not around  
**Bm**                    **G**                    **D**                    **A**  
But she sees on a screen I am, so here I am, here I am  
**Bm**                    **G**                    **D**                    **A**  
She don t call me one and only no, she just calls me when she gets lonely  
**Bm**                    **G**                    **D**                    **A**  
Something I do that gets her there, so feel better, and get well

[Verse 1]

**Bm**                    **G**                    **D**                    **A**                    **Bm**  
There s no love without this pain, there s no one time without again  
**Bm**                    **G**                    **D**                    **A**  
And there s no way that I am, what she needs now  
**Bm**                    **G**                    **D**                    **A**                    **Bm**  
I m just a passing plan, not a for sure, without a chance  
**Bm**                    **G**                    **D**                    **A**  
And there s no way that I am, what she sees now

[Chorus]

**Bm**                    **G**                    **D**                    **A**  
She calls me when I m in town, I pretend I m not around  
**Bm**                    **G**                    **D**                    **A**  
But she sees on a screen I am, so here I am, here I am  
**Bm**                    **G**                    **D**                    **A**  
She don t call me one and only no, she just calls me when she gets lonely  
**Bm**                    **G**                    **D**                    **A**  
Something I do that gets her there, so feel better, and get well

[Verse 2]

**Bm**                    **G**                    **D**                    **A**  
Backwards now we re back again, sideways just to find our friends  
**Bm**                    **G**                    **D**                    **A**  
Oh this road is changing everything I know now  
**Bm**                    **G**                    **D**                    **A**  
We sat down inside my head, let s just talk about something else  
**Bm**                    **G**                    **D**                    **A**  
The sun gets brighter and takes me alone, oh oh oh oh

[Chorus]

**Bm**                    **G**                    **D**                    **A**  
She calls me when I m in town, I pretend I m not around  
**Bm**                    **G**                    **D**                    **A**  
But she sees on a screen I am, so here I am, here I am  
**Bm**                    **G**                    **D**                    **A**  
She don t call me one and only no, she just calls me when she gets lonely  
**Bm**                    **G**                    **D**                    **A**  
Something I do that gets her there, so feel better, and get well

[Verse 3]

**Bm**                    **G**                    **D**                    **A**                    **Bm**  
No this curtains never closed, only one way that this goes  
**Bm**                    **G**                    **D**                    **A**  
Turning circles and we lose our faces  
**Bm**                    **G**                    **D**                    **A**                    **Bm**  
New faces around but, no replacements I ve found  
**Bm**                    **G**                    **D**                    **A**  
Can we just find a way to, go back, home now

[Chorus]

**Bm**                    **G**                    **D**                    **A**  
She calls me when I m in town, I pretend I m not around  
**Bm**                    **G**                    **D**                    **A**  
But she sees on a screen I am, so here I am, here I am  
**Bm**                    **G**                    **D**                    **A**  
She don t call me one and only no, she just calls me when she gets lonely  
**Bm**                    **G**                    **D**                    **A**  
Something I do that gets her there, so feel better, and get well

[Bridge]

**Bm**                    **G**                    **A**                    **Bm**                    **D**                    **A**  
Don t call me one and only, just call me when you get lonely  
**Bm**                    **G**                    **D**                    **A**  
Something that gets her there, so feel better, and get well well  
**Bm**                    **G**                    **A**                    **Bm**                    **D**                    **A**  
Don t call me one and only, just call me when you get lonely  
**Bm**                    **G**                    **D**                    **A**  
Something that gets her there, so feel better, and get well
