**Dm**

and its something I held maybe one time and I

and all I do is think

But thinking about you never brought you back

**Dm**

So far from you in my mind I go

**Bb**

But my heart hurts, it brings me back before I know

**Dm**

So all I do is think

(refrão)

Cuz I tried to change

And I tried to work

And all I know the more that I think about it is, the deeper I doubt it  
is unsure what this emotion promises  
what kind of pain and strain it is  
so many times Ive done that before  
told myself that I should know more  
Seek and get past it, now that I lost it  
there is no bridge, so how can i cross it?  
Down so low in the valley of decision  
Clouded mind disturbing my vision  
Bleeding heart affecting my vision  
compromising on this love mission  
and no matter how me try, still she cant just satisfy  
now could the truth be a lie  
water drop out of me eye cuz me see the well run dry  
I tried

(repetir acordes do refrão)

Cuz I tried to change  
and I tried to stay, tried to stay the same  
And I tried to work  
And I tried for her, her, her  
I tried

(2º Solo de guitarra)

(repetir acordes do verso)

No i cant forget that day I got you  
theres something about you,I just watched you (fire!)

memories of you keep flashing through my mind  
cant keep it up and me cant resign  
Destination street and me no see no sign

Got to rise above to cross borderline

I tried

cuz I tried to change

and I tried to stay, tried to stay the same

And I tried to work

And I tried for her, I tried
