

Let You Go
Soja

F **C** **Dm**
It occurred to me as things are slowing down that it s always much better
C **F** **C**
Dm **C**
When you re around, and it s slowly turning me upside down upside down
Dm
You can be who you want to
C
You can see who you want to
Am **C**
There s nothing I can tell you now except
Dm
I m always thinking of you
C
Even when I don t want to
Am **C**
In more ways than I can count

F
Cuz I didn t meant to let you go
C
Should ve been the first one to let you know
Dm
Change your mind
C
And let me slide just one more time
F
It doesn t have to be this way
C
We could stop fighting and wake up in your place, or
Dm
I could go
C
Leave it to chance and just let this go on...

F
And when we re in the future
C
And now is a million miles away
Dm **C**
Will we start to reconsider what now belongs to yesterday
F **C**

This whole life is moving fast for me, is it for you the same?

Dm

C

And do you dream and when you do, do you wake up saying my name?

Dm

You can be who you want to

C

You can see who you want to

Am

C

There s nothing I can tell you now except

Dm

I m always thinking of you

Even when I don t want to

Am

In more ways than I can count

Dm

I could go

C

Leave it to chance and just let it go, let it go

F

C

We were only children still deciding who to be

Dm

C

I remember following you, hoping you d look back at me

F

But then a band became my life

C

And you heard California s nice

Dm

C

And then we got older like people do

F

But I didn t mean to let you go
