

Moving Stones

Soja

[Intro] **Dm F Bb Dm C**

Dm **F**
You say there s gotta be a better way for you
Bb
But see you re staying in the same old groove
Dm
Ignoring the fight and blind to the light
C **Dm**
You re hoping and praying but never making that move

Dm **F**
The earth s just moving in the way it does
Bb
Spinning in the space waiting for your want
Dm
Do you really need it what you really needed
C
Slipping from your touch

Dm
You could do it right now
F
Let a little light out
Bb **C**
We re moving stones
Dm **F**
Looking for the inside remembering the real life
Bb **C**
We covered up
Dm
We covered up

Dm **F**
Can you put it down never pick it back up
Bb
Hate it so much that you give it all up
Dm
Finding that center do you remember
C **Dm**
When you were a kid all you need was love
F
I guess that kid will never be back again

Looking around at ever one of your friends

Some are doing worse so you are feeling better
