

Shadow  
Soja

[Intro] C F Am G

I m not a shadow  
I m not the ground beneath your feet  
I m not a shadow  
When you look down, you wont see me  
Ill stand up and ill stand tall  
I don t follow anyone  
I m not a shadow, cause I m not a shadow

C , F , Am , G  
Here s to you don t settle, and never separate  
And never be quiet cause the words you say  
You never go back on and never turn around  
Never judge another cause as stupid it sounds  
C , F , Am , G  
Cause when you see others knowin they re all brothers  
Knowin they re all sisters, seein the big picture  
If they re not with you, then they re against  
And were here now when they are way back when  
C , F , Am , G  
So why try to please everyone?  
When it seems that all the people really want  
Is to show love, and out and get love back  
Is to show some faith and get respect  
C , F , Am , G  
Just look at the world then, you look at the problems  
And look at the hatred, and we still cant solve it  
So look inside and you ll find step one  
Forget a diamond I m shinin like the sun

I m not a shadow

Am G  
I m not the ground beneath your feet

C F  
I m not a shadow

Am G  
When you look down, you wont see me

C F  
Ill stand up and ill stand tall

Am G  
I don t follow anyone

C F Am G  
I m not a shadow, cause I m not a shadow

C , F , Am , G

Here s to you on your own, the innocent criminal  
You never fit the mold, you never go sit down  
You never go get approval no matter how you prove  
That love is the motive in everything you do  
And revolution is you and you re against the machine  
You know who you are and you know what I mean  
And when this record stops you would never slow down  
When the video is over you want your turn now so

C , F , Am , G

You make the truth and move straight ahead  
While the followers behind you get left for dead  
For the imminent brainwash follow the dumb rules  
Created by individuals who unlike you

C , F , Am , G

Don t care for the world or, care for the people  
They love it their way, and they love unequal  
And they love when they feel above someone  
I don t follow the leader when they re all wrong

Cause C F  
I m not a shadow

Am G  
I m not the ground beneath your feet

C F  
I m not a shadow

Am G  
When you look down, you wont see me

C F  
Ill stand up and ill stand tall

Am G  
I don t follow anyone

C F Am G  
I m not a shadow, cause I m not a shadow
