I m not a shadow
 I m not the ground beneath your feet
 I m not a shadow
 When you look down, you wont see me
 Ill stand up and ill stand tall
 I don t follow anyone
 I m not a shadow, cause I m not a shadow

C , F , Am , G
 Here s to you don t settle, and never separate
 And never be quiet cause the words you say
 You never go back on and never turn around
 Never judge another cause as stupid it sounds
 C , F , Am , G
 Cause when you see others knowin they re all brothers
 Knowin they re all sisters, seein the big picture
 If they re not with you, then they re against
 And were here now when they are way back when
 C , F , Am , G
 So why try to please everyone?
 When it seems that all the people really want
 Is to show love, and out and get love back
 Is to show some faith and get respect
 C , F , Am , G
 Just look at the world then, you look at the problems
 And look at the hatred, and we still cant solve it
 So look inside and you ll find step one
 Forget a diamond I m shinin like the sun

C F
 I m not a shadow

Am G
I m not the ground beneath your feet

C F
I m not a shadow

Am G
When you look down, you wont see me

C F
Ill stand up and ill stand tall

Am G
I don t follow anyone

C F Am G
I m not a shadow, cause I m not a shadow

C , F , Am , G

Here s to you on your own, the innocent criminal
You never fit the mold, you never go sit down
You never go get approval no matter how you prove
That love is the motive in everything you do
And revolution is you and you re against the machine
You know who you are and you know what I mean
And when this record stops you would never slow down
When the video is over you want your turn now so

C , F , Am , G

You make the truth and move straight ahead
While the followers behind you get left for dead
For the imminent brainwash follow the dumb rules
Created by individuals who unlike you

C , F , Am , G

Don t care for the world or, care for the people
They love it their way, and they love unequal
And they love when they feel above someone
I don t follow the leader when they re all wrong

Cause C F
I m not a shadow

Am G
I m not the ground beneath your feet

C F
I m not a shadow

Am G
When you look down, you wont see me

C F
Ill stand up and ill stand tall

Am G
I don t follow anyone

C F Am G
I m not a shadow, cause I m not a shadow
