I VE BEEN ALONE TOO LONG  
SOKO

**Em**

Thought I saw your face

**G**

At the end of the alley  
It was dark but somewhat pretty  
Just like everything I see

**C**

Except you were there glowing  
Your body was floating

**Em**

Off the ground

**G**

Thought I d come running  
Try to catch you while I can

**B**

But I never seen such beauty  
And I stood there paralyzed

**C**

I swear I saw an angel  
But I was too weak to come closer  
Blinded by its glow and  
Before I knew

**Em**

It faded out

**C**

**G**

And I m still looking for my father

**C**

So I cannot have a lover now

**G**

I m still looking for my father

**C**

So I cannot have a lover now

**D**

**G**

I m still looking for my father

**C**

So I cannot have a lover now

**G**

**C**

I m still looking for my father

**G**

**C**

So I cannot have a lover now

And I ll make room for the light time
