I VE BEEN ALONE TOO LONG  
SOKO

**C#m**

Thought I saw your face

**E**

At the end of the alley  
It was dark but somewhat pretty  
Just like everything I see

**A**

Except you were there glowing  
Your body was floating

**C#m**

Off the ground

**E**

Thought I d come running  
Try to catch you while I can

**G#**

But I never seen such beauty  
And I stood there paralyzed

**A**

I swear I saw an angel  
But I was too weak to come closer  
Blinded by its glow and  
Before I knew

**C#m**

It faded out

**A**

**E**

And I m still looking for my father

**A**

So I cannot have a lover now

**E**

I m still looking for my father

**A**

So I cannot have a lover now

**B**

**E**

I m still looking for my father

**A**

So I cannot have a lover now

**E**

**A**

I m still looking for my father

**E**

**A**

So I cannot have a lover now

INSTRUMENTAL: **C#m E G#m A C#m**

So come to me angel

**E**

**G#**

It s way too dark out here

**G#m**

**G#**

And I need your glow to glow

**E**

**G#m**

I need your glow to glow

**A**

So get out of here darkness

And I ll make room for the light time

Make room for the light

**E**

Cause I ve been alone too long

I ve been alone too long

**C#m A**
