I VE BEEN ALONE TOO LONG  
SOKO

**Fm**

Thought I saw your face

**G#**

At the end of the alley  
It was dark but somewhat pretty  
Just like everything I see

**C#**

Except you were there glowing  
Your body was floating

**Fm**

Off the ground

**G#**

Thought I d come running  
Try to catch you while I can

**C**

But I never seen such beauty  
And I stood there paralyzed

**C#**

I swear I saw an angel  
But I was too weak to come closer  
Blinded by its glow and  
Before I knew

**Fm**

It faded out

**C#**

**G#**

And I m still looking for my father

**C#**

So I cannot have a lover now

**G#**

I m still looking for my father

**C#**

So I cannot have a lover now

**Eb**

**G#**

I m still looking for my father

**C#**

So I cannot have a lover now

I m still looking for my father

**G#**

So I cannot have a lover now
