

I Wont Make You  
Something Corporate

First time doing this. Pretty good though. If you think there s anything wrong with this  
please leave a comment ^^

[Verse]

Dm F C G  
I m under attack again my dear, I m in the way

Dm F C G  
Got no resolutions, no clever anecdotes to say

Dm F C G  
And still if I yell at the top of my lungs will it be the same?

Dm F C G  
I d fly you a flag, I d bury this pen into my veins

[ Chorus ]

**Am** I wanna feel through you tonight  
**F**  
**C**  
But I won t make you  
**G**  
I won t make you

[Verse]

Dm                    F                    C                    G  
The telephone number I got for you says nobody s home

Dm                    F                    C                    G  
The best thing I can think to do right now is leave it alone

Dm                    F                    C                    G  
And you had an apology in your mailbox since last July

Dm                    F                    C                    G  
It s funny when you find the words to say you find no reply

[ Chorus ]

Am F  
I wanna feel through you tonight  
C  
But I won t make you  
G  
I won t make you  
Am F

Scream my name just one more time

**C**

But I won't make you

**G**

I won't make you

[Bridge]

**F** **Am**

And it's been hours now

**G** **Dm**

To be here like this

**F** **Am**

And just to lay you down

**G** **Dm**

And just to taste your lips

**F** **Am**

And just to keep me up

**G** **Dm**

God I'm tired of sleeping

**F** **Am**

And just to lay inside you

**G** **Dm**

And just to know this feeling

[Chorus]

**Am** **F**

I wanna feel through you tonight

**C**

But I won't make you

**G**

I won't make you

**Am** **F**

Scream my name just one more time

**C**

But I won't make you

**G**

I won't make you
