

Wait
Something Corporate

This is one of my favorite SoCo songs and I have been looking for a tab on it for a while now...but all I could find were bass tabs for the song and the bass part has nothing to do with the rest of this awesome song. Actually this song is not written by Andrew(piano/singer) but instead by Josh(guitarist)...and back-up vocals are actually sung by Brian(the drummer) This song never made it onto an album...but I really think that if you don't have it you should download it(legally of course)

THIS SONG IS PLAYED WITH A CAPO ON THE SIXTH FRET

It's really a simple song once you get it in the right key(capo)
it repeats the same thing...over and over...only a total of three chords
you'll use these three chords-

	C9	G	-Some form of F#?(I don't know this one's name)
E	-----3-----	3-----	3-----
A	-----3-----	3-----	3-----
D	-----0-----	0-----	0-----
G	-----2-----	0-----	0-----
B	-----3-----	2-----	0-----
E	-----0-----	3-----	2-----

so the entire song goes **C9-G-F#-G**
you'll repeat that over and over

C9-G-F#-G
C9-G-F#-G
C9-G-F#-G
C9-G-F#-G

yeah...different strumming patterns but you got that...

cool
