E:-----|

{Verse 1}

A

Well when I was just a little bitty kid

D

I remember one time Mommy said

E

A

Daddy sends you all his love, from Frisco Bay

A

Well I didn t understand till I was grown

D

Why my Daddy didn t spend a little time at home

E

A

Instead of running round the country that way

{Chorus}

A

E

Oh I m looking at the world through a windshield

A

Seeing everything in a little bit different light
[Watching it fly by me on the right]

D7

I got a sweet little thing that I m dying to see in Nashville

E

A

And I m down around Dallas and rolling on south tonight

Intro Riff

{Verse 2}

Well long strips of rubber that you see
Were burnt off of this rig by the likes of me
And they ll rot along the highways in this land
I m gonna write my name in this diesel smoke
And let the ones that come along behind me choke
And try to keep this pace I m setting anytime that they can

{Chorus}

{Verse 3}

Well I push this rig through the sleet and rain
And I ve driven through the rough terrain
Of the rockies to the docks of old L.A.
On down that old pacific shore
I swing north and head for Baltimore
Or some place bout 2000 miles away

{Chorus}

E

A

And I m down around Dallas and rolling on south tonight
