G C D G
Take it, leave it, make things matter, let in all my breath away.
G C D G
Take it all apart and put it back, I am always left here lookin at you.
G C D G
You look so fine, true, you look so fine, true.
G C G C G
I would not lie to you

Let me see you, let me know your dreams, won t you please give out a sign
things you say make me look through you, no one mystifies me like you do.
This is why I always look at you, and I hold you to it every day

You look so fine, true, no one mystifies me like you do
You look so fine, true, no one mystifies me like you do
