**Sonata Arctica**

BROKEN -Sonata Arctica

Standard Tuning (EADGBe) Capo 1

[VERSE]

**Bm**            **A**                            **Dm**            **F**  
I was raised from a broken seed

**C**            **G**                            **F#m**    **E**            **Bm**  
I grew up to be an unwanted weed

**A**                            **Dm**            **F**  
Ever faster the time exceeds me

**C**            **G**                            **F#m**            **E**            **Bm**  
Little harder again to remember you

**A**                            **Dm**                            **F**            **C**            **G**  
Held a torch for you when lightning struck me once again  
                 **F#m**                            **E**  
Hope I died for the last time

**Bm**            **A**                            **Dm**                            **F**  
Only one I have a thing greater than you

**C**            **G**                            **F#m**    **E**            **Bm**  
Little light on the sky every night

**A**                            **Dm**                            **F**  
Morning dew on the field where I met you

**C**            **G**                            **F#m**                            **E**  
I was frozen a year, couldn t get through

**Bm**            **A**                            **Dm**                            **F**  
Got a sign, not a scar, on my shoulder

**C**            **G**                            **F#m**            **E**            **Bm**  
I am not quite the man you take me for

**A**                            **Dm**                            **F**  
Fell in love with the weakness within me

**C**            **G**                            **F#m**            **E**  
Tried to force me the ring and own me

**Bm**            **A**                            **Dm**                            **F**  
Guess you found what you d think would oblige me

**C**            **G**                            **F#m**            **E**  
Little version of me to consume you

[PRE-CHORUS]

**C#m** **B** **E**  
I'd give my everything to you  
**F#** **C#m**  
Follow you through the garden of oblivion  
**B** **E**  
If only I could tell you everything  
**F#**  
The little things you'll never dare to ask me

**C#m**  
Do you really know me?  
**B**  
I might be a God  
**E**  
Show me that you care and have a cry  
**E**  
How do you see me (as the one)?  
**F#** **C#m**  
Can you see my blood when I'm bleeding?  
**C#m**  
How can you love this exile?  
**B** **E**  
And how could I desire you  
**F#** **Gm**  
When my pain is my pain and yours is too?

[CHORUS]

**Bb** **Dm**  
On this deadwinter's night  
**F** **Bb**  
Darkness becomes this child  
**Bb** **Dm**  
Bless this night with a tear  
**F** **Bb**  
For I have none I fear

[VERSE]

**A** **Dm** **F**  
Seven lives of a man passed before me  
**C** **G** **F#m** **E** **Bm**  
Seven graves; one for every love I've had  
**A** **Dm** **F** **C**  
Only once I have broken my so-called heart  
**G** **F#m** **E** **Bm**  
Only one made me see why they cry

**A** **Dm** **F** **C**  
Will I learn how to be one of you someday  
**G** **F#m** **E**  
Will I still feel the eyes that behold me?

**Bm** **A** **Dm** **F**  
Will I hear what you think when you see me?  
**C** **G** **F#m** **E** **C#m**  
Will it tear me apart if you feel for me?

[PRE-CHORUS]

Heaven s closed, Hell s sold out

**Dm**  
Hidden from everyone
