To get this day off your mind

[Verse Chords]

Sifting through all the remaining files

Counting down all the remaining miles

Drifting off into a different night

Paralyzed by all the warning lights

[Pre-Chorus Chords]

Waking the patient satellites

Sleepy benevolent eyes

Heavily drunk on distant love

They never once misplaced a call

I hope they never grow old

I know it may take some time

To get this day off your mind
I know it may take some time
To get this day off your mind
