

Burn This City
Sonic Syndicate

Verse:

C

Are we alive?

Am

Because I heard a rumor

F

That day we died was yesterday

G

So are we rotting now?

G

Can't find our graves?

C

Well they created a lie

Am

Built out of structure and routine by robots

F

G

But this night we're taking the virus to them

Chorus:

C

Burn this city to let them know we're here

Am

Burn this city to reinstall the fear

F

How can I sleep when you pull focus

G

Right before my eyes

C

Am

Still they find another way to put a different gun to our heads

G

And so I take a breath there's plenty time to sleep when I'm dead

Is this the only way it's ever gonna be?

F

Right before my eyes
