Sophie Ellis-Bextor

Intro: **F G Am F G Am Bb C**

Verse
```
  F                               G          Am
I used to change my accent, change my stance,
F                      G        Am
 My phone number, the way I-i dance.
      F                               G          Am
Some people change lovers like they change their sheets,
        Bb                      C
But I won t change you, honey; you re for keeps.
  F                               G          Am
I used to think I had to change the way I a-am
F                G        Am
 To fe-el better, to get a-a man.
      F                         G          Am
But once I stopped trying I fell for you.
    Bb                      C
You fell for me, so I ll stay the same for you.
```

Bridge
```

            C
Boy, you can always count on me.
    Gm                          C
For better or for worse, I will always put you first.
```

Chorus
```
F
Now that I have found you,
      G            Am
You ve changed my life,
      F
 Cos you re the one who showed me
      G
I have everything right.
```

We re never gonna differ

Cos we know it s true.

So don t change me

And I won t change you.

I used to change my style like I changed my mind.

I tried to change a tyre but I m not that way inclined.

Tried to change my figure, my diet too.

I ll still change my underwear if that s OK with you.

Oh yeah

The world can sometimes make you feel bad.

Oh yeah

But don t forget the things you have.

Oh yeah

Boy, you can always count on me

In sickness and in health, baby, always be yourself.

Now that I have found you,

You ve changed my life,

 Cos you re the one who showed me

I have everything right.

We re never gonna differ

 Cos we know it s true.

So don t change me

And I won t change you.

Now that I have found you,

You ve changed my life.

You re the one who showed me

I have everything right.

We re never gonna differ

 Cos we know it s true.

So don t change me

And I won t change you.

Now that I have found you,

You ve changed my life,

 Cos you re the one who showed me

I have everything right.

We re never gonna differ

 Cos we know it s true.

So don t change me

And I won t change you.
