Bm **A** **Bm** **A**
It s a mixed up world, It s a mixed up world, It s a mixed up world
Bm **A** **Bm** **A** **G** **F#**
Mmmâ€| ohh

Bm/Gb
I m feeling all messed up, I have a voice inside my head

A
It says turn to the left then it says turn to the right

Bm/Gb
Don t want to bring you down

A
But I am really needing guidance now

What would you do within my shoes?

Bm/Gb
(Don t cry) I m going crazy

A
(Stay high) I ve never felt so low

Bm **D** **E**
(Don t hide) I want to turn and run

A
We ve got to find a place to go

G
So when you re feeling kind of mixed up

A
Just remember it s a mixed up world

G
And when you re feeling life is just too tough

A
Just remember you re a real tough girl

Bm **A**
It s a mixed up world, It s a mixed up

I look around my life
and all I see is contradiction and a lack of faith
Cynicism rules the day
I know it has it s place
But I am really needing guidance now
Reminding me I m strong inside

(Don t cry) I know you love me
(Stay high) and we ll make it through this time
(Don t hide) I want to feel the sun

We ve got to start to take control

So when you re feeling kind of mixed up..

(why) do I feel this pain

(why) has this world gone insane?

So when you re feeling kind of mixed up.. (x2)

Bm

A..

Don t wanna hurt no more (6x)
