

**Mixed Up World**  
**Sophie Ellis-Bextor**

Mixed Up World by SOPHIE ELLIS-BEXTOR, MATT ROWE, GREGG ALEXANDER

**Am**                      **G**                      **Am**                      **G**  
It s a mixed up world, It s a mixed up world, It s a mixed up world  
**Am**                      **G**                      **Am**                      **G**                      **F**                      **E**  
Mmmâ€| ohh

**Am/Gb**  
I m feeling all messed up, I have a voice inside my head  
**G**  
It says turn to the left then it says turn to the right  
                    **Am/Gb**  
Don t want to bring you down  
                    **G**  
But I am really needing guidance now

What would you do within my shoes?  
                    **Am/Gb**  
(Don t cry) I m going crazy  
                    **G**  
(Stay high) I ve never felt so low  
                    **Am**                      **C**                      **D**  
(Don t hide) I want to turn and run  
                    **G**  
We ve got to find a place to go

**F**  
So when you re feeling kind of mixed up  
                    **G**  
Just remember it s a mixed up world  
                    **F**  
And when you re feeling life is just too tough  
                    **G**  
Just remember you re a real tough girl  
**Am**                      **G**  
It s a mixed up world, It s a mixed up

I look around my life  
and all I see is contradiction and a lack of faith  
Cynicism rules the day  
I know it has it s place  
But I am really needing guidance now  
Reminding me I m strong inside

(Don t cry) I know you love me  
(Stay high) and we ll make it through this time  
(Don t hide) I want to feel the sun

We ve got to start to take control

So when you re feeling kind of mixed up..

(why) do I feel this pain

(why) has this world gone insane?

So when you re feeling kind of mixed up.. (x2)

**Am**

**G..**

Don t wanna hurt no more (6x)
