Em **D**
Nothing s lost, take these chains Take them away

Please don t ask me how I am
A little tired, a little scared
I m not amused, not upset
Don t need a leash, I m not your pet

So loosen up, feel the breeze
Let me hear" hear you breathe
It s better than, bitter now
When you breathe I love that sound

But you know I ll look after You like no one

Lose the cradle chain
Give it up, give it a name
The child that remains
Nothing s lost, take these chains
Take them away

If I die before I wake
Light a fuse, bake a cake
I don t mind if I go
Make it quick, don t be slow

But you know I ll remember You like no one

Lose the cradle chain
Give it up, give it a name
The smile that remains
Will take these chains away
