

**Lights On A Plane  
Special Patrol**

Special Patrol - Lights on a Plane [From The Stranger's Dozen - 2009]

I'm not entirely sure of the lyrics. They aren't included in the album booklet so I  
my best to work them out by ear. I apologise if they're wrong - please comment  
if they are  
I'll edit the lyrics.

To match the recording, I think it needs a capo on the 4th fret.

Thanks again and happy playing

-----

**C            Am                            G**  
Time keeps ticking like dripping, broken tap  
**C            Am                            G**  
And I've been trying too hard but the problems that

**F                          C**  
I've been so scared of change  
**F    C**  
I'm up and down like a boat on a wave  
**G**  
And I've got nothing left to say

**F            G**  
And you've been  
**C            C/B                          Am**  
Fading away like the lights of a plane  
**F            G**  
And I've been  
**C                          C/B                          Am**  
Chasing the darkness away every day

**F            G**  
And it's all  
**C                          C/B                          Am**  
A mess and I guess that you left quite a stain  
**F                          G**  
Cause I still want you just the same

[Whistle solo]

I'm on the dark side of the rain  
You're on the right side of my brain  
I miss you every day

And you ve been  
Fading away like the lights of a plane  
And I ve been chasing the darkness away every day  
And it s all a mess and I guess that you left quite a stain  
Cause I still want you just the same

[Cello solo]

And you ve been  
Fading away like the lights of a plane  
And I ve been chasing the darkness away every day  
And it s all a mess and I guess that you left quite a stain  
Cause I still want you just the same
