I might know, where I could be

F#m

Remotely lose, to what you need

G#m

Words an get the best of me

F#m

I hope you ll understand

Verse II:(Do Verse Chords)

Half the time, These simple lines

Might not mean a thing to you

Keep in mind, These simple lines

Mean all the world to me

Bb

When it s four in the morning

And you're half asleep

Bb G#m

The alarm clock sings the song of your defeat

F#m Bb

It s what you said, You can lose a week

You can lose a month

G#m

You can lose a year

F#m

You can lose someone yourself

Bb

But who s to blame you?

F#m

You were so innocent but then

Chorus:

G#m

Between the songs we used to sing

G#m Bb

Was an endless search for answers

We found that part of us

We lost along the way

C#m

Beneath the songs we dare not leave

G#m Bb

Was a lifetime s wort of fire

F#m

Burning as we sing, as we sing

Verse III: (Do Verse Chords)

Songs might get, the best of me

So I hope you ll understand, I ll keep in mind

That these songs of mine, May mean the world to you

Refrain: (Refrain Chords)

As I purge myself

Of the weight I bare

Through the songs I sing

I can see you there, You re just like me

I can lose a week, I can lose a month

I can lose a year, I can lose someone Myself

But who s blame us?

These questions loom beyond us all

(repeat chorus)

As we sing

(Do Chorus Chords)

Keep the fire burning (5x)

All around us now

Keep the fire burning, Nasaan ka man

Keep the fire burning, keep the fire

Burning on and on, Keep the fire

Burning on and on and on

Nasaan ka man.
