

All Gone Wrong
Sponge

Tabbed by Merlin Blencowe

INTRO

```

-----2-----
---2---2-----0--4-----2---2-----
-0-----4-----4-----4---2---0---etc-
-----

```

This actually plays throughout the verses with only the bass as accompaniment, but if you want rhythm for it you ll be needing these:

```

-----
-5-----7-----9-----
-6-----7-----9-----
-7-----7-----9-----
-7-----5-----7-----
-5-----
A           D           E

```

These fit round the lyrics as:

```

A           D
Let me tell ya a story about a girl named Sheila
A           D
Lovely little thing but a bit of a dreamer
A           D
She s been married, three long years
A           E
Got three children and they re all litle dears but...

```

And for the chorus:

```

A           D
Uhoh, it s all gone wrong and
A           D
Uhoh, it s all gone wrong amd
A           D
Uhoh, it s all gone wrong
E
  It s all gone wrong!

```

When the rhythm really does kick in it s exactly the same chords in the following manner:

```

-----
-----
-6--6---7--7---6--6---9--9---
-7--7---7--7---7--7---9--9---
-7--7---5--5---7--7---7--7---
-5--5---5--5---5--5---

```

And that s about it really. Now you ve just got to figure out a bass line...
