C   **G**
Who wants to be the only one for you

Just another guy
D/Fis
Blinded by your smile
Em
Just a lonely heart
C   **G**   **D**/Fis **Em**   **C**
Can t stand this aching feeling we re apart, ... apart

G   **D**/Fis   **Em**   **C**
Let me sleep in your arms
G   **D**/Fis   **Em**   **C**
Let me breathe this clean bright light surrounding you

I know I m not smart
But still I m trying hard
Let me be your guard
Protecting you, my angel, from the dark

I will not pretend
That I m just a friend
My deliverance
Will you think about me every now and then...

When I call again

Let me sleep in your arms
Let me breathe this clean bright light surrounding you
Let me dream in your arms
Let me breathe this clean bright light surrounding you

Let me sleep in your arms
Let me breathe in your arms
Let me sleep
This clean bright light surrounding you
you...

In your arms, just in your arms

yeah...
