

Empty Lives

Star Fucking Hipsters

This sounds pretty good on an acoustic guitar, but the actual song sounds a lot different.

Em **C**
And when your mind is dead
C **G**
Empty eyes sit in your head
G **D**
And ya sense thers nothing left
D **Em**
With every passsing breath
Em **C**
But ya soldier on each day
C **G**
Why should thoughts get in the way?
G **D**
There s a place for you right here
D **G**
cause conformity hides Fear
G **C** **D** **Em** **Gb** **G**
I d say to you
G
I d say to you
G **C**
Just try and chang
C **D**
Empty lives can fill again
D **Em**
We re not doomed by any fate
Em **Gb** **G**
And it can never be to late
G **C**
Unless ya die like all my friends
C **G**
Meeting silent jaded ends
G **D**
Then a lesson might bbe learned
D **Em**
Ypou can fade away and burn
Em **C**
the two are not exclusive things
C **G**
But the sorrow that they bring
G **D**
it can jade us all to hate
D **G**
Cause emprty lives don t devastate

repeat chorus, you know the rest. Make sure to listen to the song and figure out the right timing.
