**Holy Musical Bman**
**Starkid**

note:
- for the intro, I just play the bass note for each chord instead of playing the

full chord, but you can do whatever you like!
- I recommend playing barre chords instead of open chords
- if you use this it would be really awesome if you link back to this video or
mention me in some way
- this song is pretty self explanatory, but if you would still like a tutorial
let me know!
