Tuning: EADGBE

Intro: **Am F C G**

Am **F**
try as he might he s unable to speak
C **G**
he grabs her by the hair, he strokes her on the cheek
Am **F**
the bed is unmade like everything is
C **G**
darklit in heaven at the top of the stairs
Am **F**
take me like that, ruin it all
C **G**
then build it again by the light in the hall
Am **F**
he drops to his knees says please my love please
C **G**
i ll kill who you hate, take off that dress, you won t freeze

Chorus:

Am **F**
one more night, that was a good one
C **G**
one more night, i dreamed it was a good one
Am **F**
one more, one more night, that was a good one
C **G**
one more night, the end should be a good one
a good one

(I m sure you get the Picture now)

he starts with her back cause that s what he sees
when she s breaking his heart she still fucks like a tease
release to the sky, look him straight in the eye
and tell him that now, that you wish he would die
you ll never touch him again so get what you can
leaving him empty just because he s a man

so good when it ends, they ll never be friends
one more night, that s all they can spend

one more night, that was a good one
one more night, i dreamed it was a good one
one more, one more night, that was a good one
one more night, the end should be a good one
a good one
